PLANNING BOARD REPORT

Upon analyzing many complex problems such as water supply, water pollution, sewage disposal, etc., confronting Hopkinton, now and in the future, the Board voted that no zoning ordinance should be submitted at this time. In order to determine the most beneficial and comprehensive plan for the development of the town of Hopkinton, the Board also voted to take advantage of the offer of the Federal Government through Federal Act No. 701. This act is a means of assisting smaller communities such as ours in securing professional and experienced planners to lay out a long range program. Interviews with four consulting engineering firms were conducted and it was determined that Hans Klunder Associates of Hanover, N. H., was the firm best qualified to carry out such a program. This program would result in land use, population, economic base (to include industrial facilities), utility (water and sewage), transportation, and public facilities (schools and recreation) studies furnishing complete multiple maps plus a much needed 100% inventory of the property in the town. Total costs of the survey would be prorated 71% Federal and State funds and 29% Town funds. This amounts to a total of \$12,000 to be divided \$8500 from the Federal and State and \$3500 from the town of Hopkinton. The Board strongly recommends that this study be carried out.

Respectfully submitted,

ALAIN J. CHARDON, *Chairman*
Hopkinton Planning Board

Noteworthy this year were the contributions of books for children, including those from the collection of Mrs. Thomas Troxell, and new books presented by children,

which were augmented by the William P. Young Memorial Fund and the Richard Burns Fund.

The Friends of the Library have made a promising start.

We express appreciation for books and magazines given during the year, and for assistance in any way in helping to promote our library program.

We are very grateful to Mrs. Ruth Blanchard who has served as Librarian for the past 3 years, and express our gratitude for her unlimited time and effort.

For special attention: Given by the New Hampshire State Library as an Honorable Mention Award in the 1962 National Library Week Contest — 'The Treasury of the Automobile' by Ralph Stein.

Preventing Forest Fires is our Responsibility

Costs of suppressing carelessly set outdoor fires in New Hampshire in 1962 cost the persons responsible \$5,545. In the same period, the cost to the cities and towns for control of such fires for which no responsibility could be placed cost another \$24,634. What utter waste of tax money and what shameful and needless loss of timber and esthetic values in the 2200 acres burned. Residences, farms, and other business places were threatened with possible total destruction.

Carelessly set man caused fires can be prevented if every citizen remembers his responsibility in regard to any source of fires in the open. We can help to keep our fire loss low by remembering these simple rules.

1. Dispose of burnable waste at the town dump.
2. If waste or brush is to be burned on the premises, obtain a permit from the forest fire warden. Seasonal permits may be issued for approved incinerators and sites.
3. Burn safely by picking a clean site, avoiding dry windy weather and preferably burning late in the day.
4. Have something to keep the fire under control — pails of water, garden hose, sprinkling can, broom for grass fires or shovel will help.
5. Be sure your fire is dead out before you leave it.
6. If the fire gets out of control or if you see a fire out of control, report promptly to your warden or fire department, continue to fight it until help arrives.

There is potential danger when matches fall into the hands of children. It is never too early for parents to install in the child's mind a respect for fire.

Keep our town safe from fire.
In 1962 we had 3 fires.

We burned $4\frac{1}{2}$ acres.
Permits issued, 76.

SUPERINTENDENT'S REPORT

Our enrollment in the Hopkinton Schools has continued to increase, a fact I think we all fully expected. The fall enrollment in September 1962 was 594 pupils as compared to the fall enrollment of 549 in September 1961. It would seem with the continued construction of houses and the size of the present classes we can anticipate a continued growth in our school population for some time to come. Increased enrollments and higher standards for high schools in the State of New Hampshire means that budgets must continue to increase also.

There have been two major changes on our curriculum this year. We have dropped Vocational Agriculture and added in its place a course in General Shop, which we feel will better meet the needs of our boys. The second change was the installation of Physical Education for boys and girls in grades seven through twelve. We feel that both these programs have worked out very well. There were a few adjustments which had to be made but I think this should be expected in any new program.

A new set of Minimum Standards for High Schools becomes effective in September 1963, which will necessitate additional services. We shall have to have a Guidance Counselor for at least three periods a day, but our enrollment is increasing so fast that I have recommended a full time Guidance Counselor who would also work with the Junior High pupils and the elementary pupils. I have applied for Federal Funds to aid us in this program and a \$1000 grant has been given with the understanding that it is a full time program. We shall also have to have a part time Librarian who will also have to teach some English classes due to our enrollment increase. This means that we will plan to add two new staff members this coming year.

Our equipment needs are going to be heavier next year. Last year we embarked on a two year program to

equip the general shop, so we are budgeting the same amount for shop as we did last year. (Incidentally, Mr. Philip Bell, Plant Manager of Kingsbury Davis, donated a metal lathe and a drill press to the shop, for which we are most grateful.)

The Science classes have increased in size so much that we are budgeting the same amount as last year for new equipment in this field in order to provide needed equipment for the Physics and Biology classes. However, the reason for the large increase in our new equipment item is in the Foreign Language area. Next year we will have forty-five pupils in French I, forty-two pupils in French II and thirty pupils in French III. The following year we expect to add French IV to the Curriculum. Our present facilities are utterly unable to handle this number so we are planning a new twenty-four pupil station Language Laboratory. Although a Language Laboratory is expensive we have applied for and been granted matching funds under the National Defense Act. We will also be able to get matching funds for the Science equipment under the same act.

Three other major areas which will affect the budget will be the increase in supplies and books for an approximately fifty pupil increase. We will be transporting more pupils and last summer the transportation committee recommended the addition of another large bus. The third major area is the problem of teachers salaries, which is all important. The success or failure of a school system depends on getting and keeping good teachers. Our salaries for teachers for the most part are very modest and in some cases quite low when compared to schools which have a comparable school program. When a school has a good staff of teachers every effort should be made to keep them.

Most of you probably read a summary of the preliminary report of the Interim Commission on Education which was published in the Concord Monitor and the Manchester Union recently. I have received a full copy

of the report but unfortunately this is only a preliminary report. A final report will not be published until late January or early February. Essentially, if the Legislature accepts this report, it will mean the compulsory consolidation of school districts taking place over a period of years. From what I can tell from the Statistical study, the Master Plan calls for eventual consolidation of five high schools in the area, namely; Antrim, Henniker, Hillsboro, Hopkinton and Warner, with a six hundred pupil high school to be located in Henniker. By the time of the annual meeting, we will know more about the plan. Whether the legislature will accept all or any part of the report is a matter of conjecture. I would assume if they did it would be a long range program taking place over a period of years. Basic to the whole program is a change in the tax structure which legislatures have been reluctant to make. I don't think any one can make a judgement of the program until the whole report is made available to the people. Until we can make a change in organization we must plan our program to give our children the best education possible. The people of Hopkinton have done exceedingly well in providing a fine program for our children and will continue to do so in the years to come.

WILLIAM C. STERLING

PRINCIPAL'S REPORT

MEMBERS OF THE CLASS OF 1962

Susan Jane Allen	Diane Rose Lord
Helen Diane Bean	Susan May Milbury
Noreen Leona Bennett	Sharon Elaine Nelson
Dexter Francis Blanchard	Susan Judith Paquin
Cyrus Peter Brewster	Jeffrey Charles Proctor
Marianne Brown	Dennis Alden Shank
Douglas Allan Cleveland	Susan Ann Sharpe
Clark Taylor Corson	Dean Leroy Smith
Faye Ward Daniels	Edward Allen Stevens
Lester Sidney Greenwood	Janice Barbara Strickford
Harry Kenneth Host	Michael Bruce Swift
Kathleen Hildreth King	Penelope Anne Verville
Charlotte Ann Kunert	Richard Allen Wallace
Priscilla Page Lincoln	Nathaniel George Wood

Of the above graduates, nine have gone on to further their education at four year institutions and six are enrolled at two-year institutions. Schools being attended are University of New Hampshire, Keene Teachers' College, University of Connecticut, Northeastern, Norwich, New England College, Vermont College, Fisher Junior College, New Hampshire Technical Institute, New York Maritime Academy, Newton Wellesley Hospital, Moore General Hospital and Thompson School of Agriculture. Of the remainder of the class eight are gainfully employed, two are in the armed forces, and two are housewives.

The Year 1961/62 saw the addition of Miss Carolyn Tasker to the staff. In the early fall Mr. William Houston resigned and his place was taken by Mr. David Kantner. After a careful study, this year we instituted a lay-reader program in the college preparatory English area. This program adapted to our situation, is based upon one that was in operation for several years at Hanover High School, Hanover, N. H. We feel that it has worked very well and has enabled the students to write approximately thirty themes a year, the national average being about six per year.

This current year has seen two major changes in our program. Miss Gail Bucklin was added to the staff so that we now have a required Physical Education pro-

gram for both boys and girls, grades 7 through 12. The other change came when our Vocational Agriculture course was replaced by an Industrial Arts course under the direction of Mr. Pertice Gaskill. In this course the boys will be given experiences in the areas of Internal Combustion Engines, Woodworking, Metal work, Welding, and Mechanical drawing. After gaining this experience over the first two or three years it is hoped that an individual will then specialize in one area his fourth year.

Our immediate problems are concerned with meeting the new Minimum Standards which go into effect in September 1963. As of this date we seem to be well on our way toward meeting the new standards.

I would like to express my appreciation to the School Board and the community for their continued efforts to make this one of the better high schools in the state.
